COASTER INDIA DINING

Why buy furniture from India?

At Coaster, we followed the wood. India's plantation grown trees are sustainable and uniquely wonderful for their natural richness in color, beauty and performance. We pride ourselves in offering affordable value in stunning solid wood. We create furniture from solid sheesham, solid mango, and solid acacia. India is an arid country, which provides vivid wood grains that are uniquely beautiful and will last for generations to come.

ARTISANS • AT • WORK

craftsmanship

The people in India have a prideful tradition in valuing artistry and craftsmanship.

You will be able to enjoy unique designs that only India would produce, because of the required hand craftsmanship details. From hand inlaid wood work, to the hand painted wood staining process, you will be proud to own them as they become tomorrow's heirlooms. India is a trending source in home fashion. They are fashion forward in having modern designs and do an amazing job creating rustic looks with intricate metal work. They have natural stones and marbles which are often incorporated.

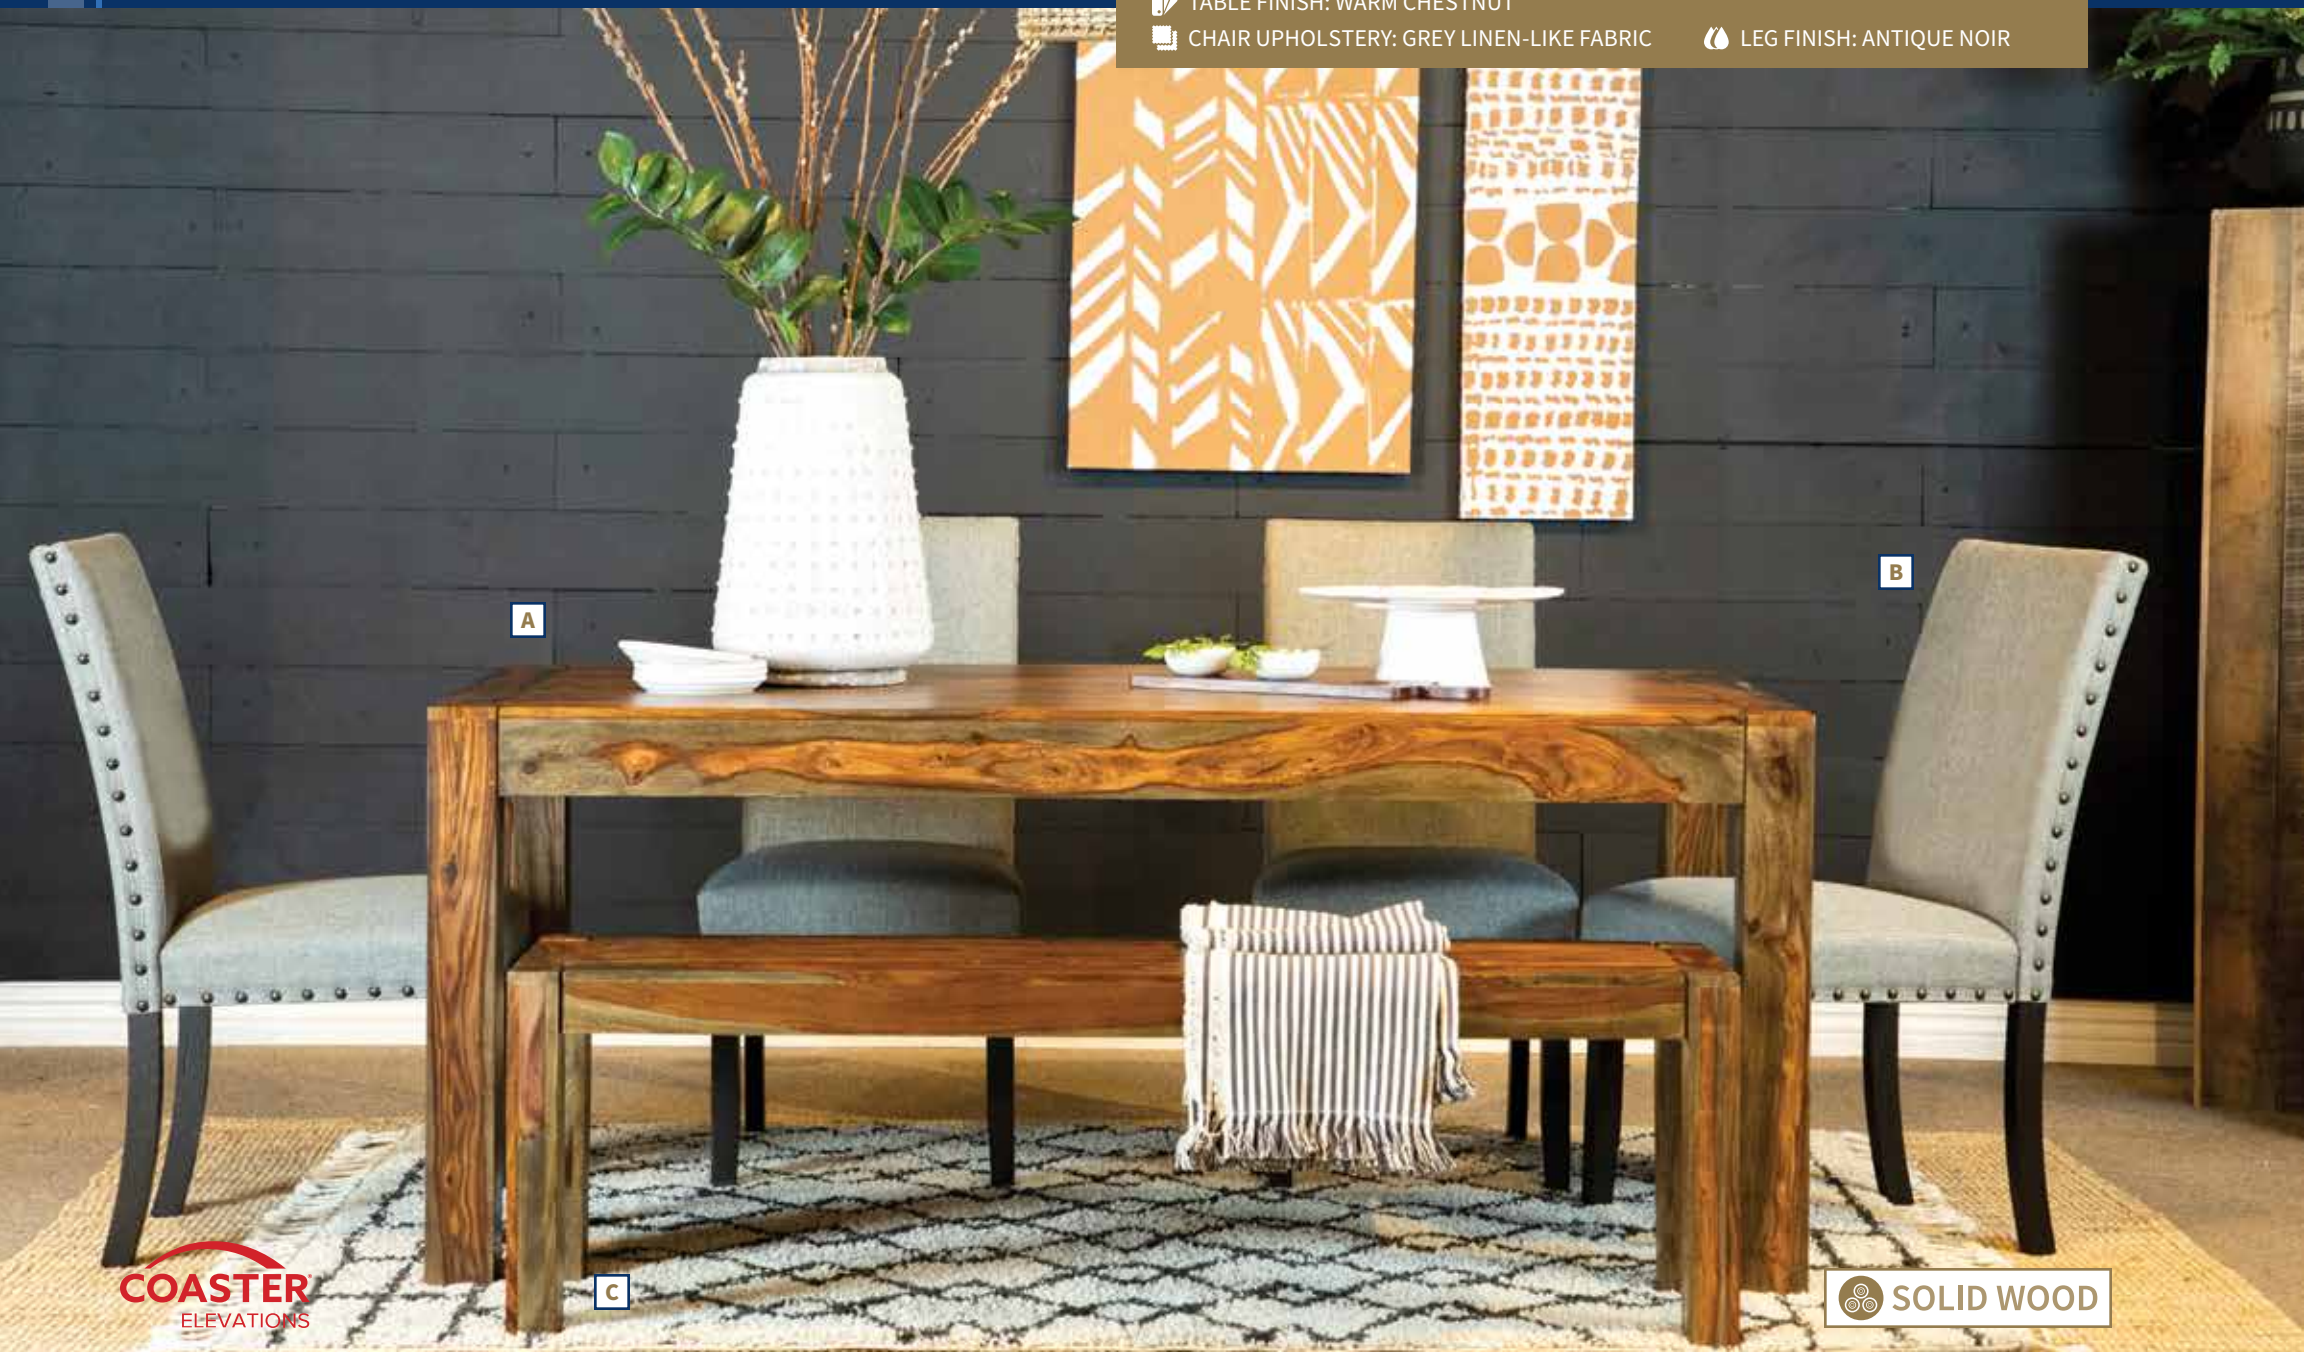

Our selected factories in India are privately and family owned. Generations in the works, these factories understand the wonderful network of family. We travel to out of the way places to find factories to collaborate with to create furniture you can treasure while bringing you the best value. Luxury can be affordable when you choose from Coaster.
